# MifeMiso Trial

ISSUE 6

DECEMBER 2018

## MifeMiso recruitment

# 500

exceeds 500!

*Great Job!*

Seasons greetings and welcome to the sixth edition of the MifeMiso newsletter! We would like to say a very huge thank you to you all for your hard work and dedication this year! We're delighted to announce that we are now over 70% of the way to achieving our recruitment target of 710 with 507 participants recruited up to the 30th November 2018. With only 203 participants left

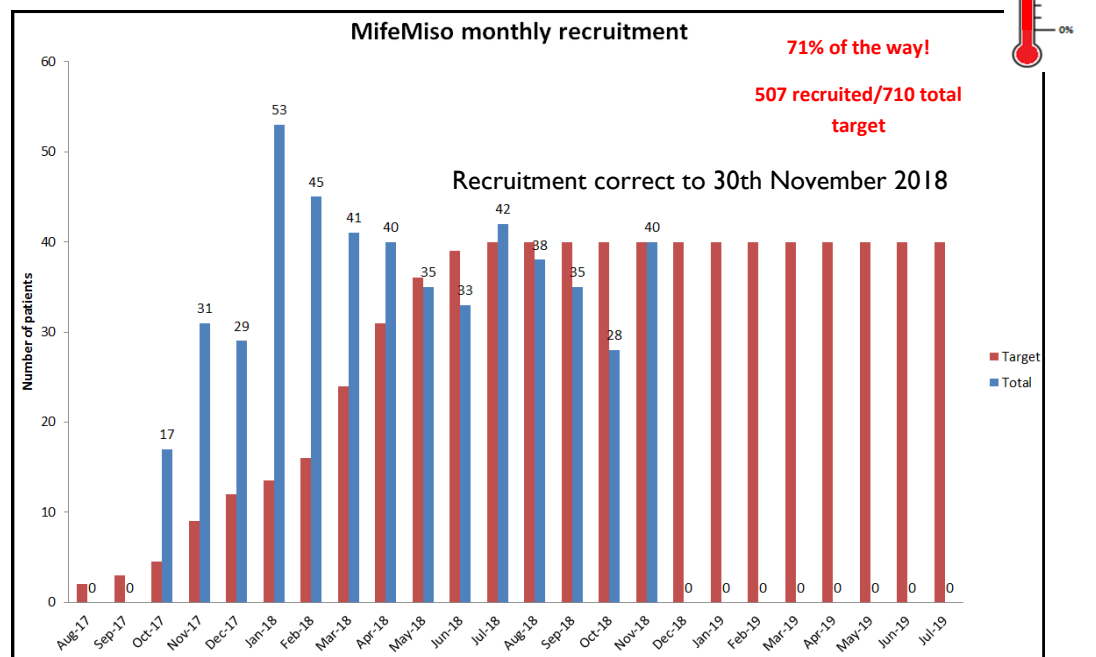

to recruit the countdown to the end of recruitment has now well and truly begun!

We're thrilled to report that following a slight dip in October we met our monthly target of 40 for November and congratulate teams at Royal Victoria Infirmary, Newcastle and Southmead Hospital for winning recruiter of the month prizes for October and

November 2018 respectively!

We wish everyone a well deserved, restful Christmas break and look forward to completing recruitment to MifeMiso in the new year!

Merry Christmas and a Happy and Prosperous New Year to all!

**Important Notice**

## Parity—data entry

Please take extra care to ensure that during randomisation the woman's parity has been entered correctly. We are aware of some inconsistencies between the response given to 'Is the woman nulliparous?' and the previous pregnancies recorded on the Baseline Medical Data form. Parity is a minimisation criteria therefore it is very important this data is accurate during randomisation to ensure equal balance between groups.

Dear Team  
You're All  
Amazing  
Keep up the  
Great work!

## Misoprostol administration

**Reminder!**

Please remember that women should only be issued with 1 x 800mcg dose of misoprostol on day 2. Women should only be issued with further misoprostol doses, if required, after day 2 post-randomisation. Please ensure that all EPU staff at your site are aware of this requirement in order to prevent women being issued within multiple doses on day 2

## BCTU Christmas Closure—please note

Please note that BCTU will be closed from **1pm on Friday 21st December 2018 and will re-open at 9am on Thursday 3rd January 2019**. During this period the BCTU telephone randomisation service will be unavailable however the online randomisation system ([www.medscinet.net/mifemiso](http://www.medscinet.net/mifemiso)) will continue to be available 24/7.

If you need to report an SAE during this period please continue to email reports to the MifeMiso NHS.net account ([bwh-tr.mifemiso@nhs.net](mailto:bwh-tr.mifemiso@nhs.net)) or fax to 0121 415 9136 which will be checked

## AEPU annual meeting

The MifeMiso central trial team attended the AEPU annual scientific meeting on 8-9th November 2018 in Sheffield, it was great to see so many of you there! Thank you to everyone that attended the Research Network meeting on Thursday 8th November and to everyone that completed the PRISM and TABLET surveys regarding your current clinical use of progesterone and levothyroxine (respectively) for miscarriage treatment

*Dr Adam Devall at AEPU annual meeting, November 2018*

BCTU Women's Health team  
Christmas Uterus!

## Data queries

Please ensure that you are regularly checking the 'monitoring' tab on the MifeMiso database for any queries raised. Once you have checked your queries please save your responses so these can be checked by the MifeMiso team. If you have any queries about this, please contact a member of the team

## MifeMiso Meet up, 19/02/2019

The next 'MifeMiso Meet Up' is scheduled for **Tuesday 19<sup>th</sup> February 2019, 11:30am-12:30pm**. Please RSVP if you would like to attend and haven't already let us know. We hope you can join us and we look forward to speaking with you

## Site invoices

Don't forget to invoice for your site payments. Invoices should be addressed to Leanne Beeson and submitted on a quarterly basis. Payments include £150 for site file maintenance and archiving, £275 for pharmaceutical receipt and dispensing of IMP and £150 per patient recruited. In addition, wave 1 sites can invoice for 20% FTE research nurse support

## BCTU 21st Anniversary celebration

BCTU celebrated its 21st Anniversary on Thursday 29th November 2018 in Birmingham. We had a fantastic day and it was a great success! Since BCTU's beginning in 1997, BCTU has provided specialist input into all stages of clinical trial development and design, to publication at a local, national and international level across a wide range of research areas.

BCTU now employees over 120 staff, coordinating over 50 studies in primary and secondary care.

We heard many interesting talks including from the Founding Director of BCTU Prof Richard Gray up to Prof Peter Brocklehurst our current BCTU Unit Director.

Prof Arri Coomasamy also spoke about Ten Years of Miscarriage Trials, including the PRISM trial, BCTU's largest drug intervention trial of 4150 women, and now the MifeMiso Trial.

*Prof Arri Coomasamy reflecting on Ten Years of Miscarriage Trials*

Prof Peter Brocklehurst, BCTU Director, cutting the cake at BCTU's 21st Anniversary celebration, 29/11/2018

*Merry Christmas from the MifeMiso  
trial team!*

- 1. Missed Miscarriage*
- 2. Medical Management*
- 3. Think MifeMiso!*
